Conclusions

- 1) The Fidelity Mgt & Research Co Funds have appreciated well during past 10 yrs. Are well above average in their groups but are not among Top ten Leaders
- 2) No Load & Low Load Funds are the Leaders in the Growth category
- 3) Generally there is consistency in ^{relative} performance of most funds but as funds grow & mature their relative performance slips
- 4) If one specialized in no load funds one could move from one to another without penalty
- 5)
